12th European Congress for Integrative Medicine

We are proud to announce that SESMI (Spanish Society of Health and Integrative Medicine) and ESIM (European Society of Integrative Medicine) will be organizing the 12th Congress of Integrative Medicine in Barcelona next September 2019.

The influence of Integrative Medicine is increasing all over the world, with health professionals and patients looking for an overall wellness. This allows an array of disciplines, including environmental, social, psychological and emotional to work together.

In our congress We will approach the main areas of interest in Integrative Medicine such as Oncology, Autoimmune Diseases, Degenerative Diseases, New therapies, New evidences and more.

See you in Barcelona to share the knowledge and the enthusiasm of our Integrative Medicine!
